ABOUT US

Welcome to Coast Spas! We've been creating innovative and customer-pleasing hot tubs and swim spas for almost 30 years. Our Canadian based company is located in Langley, British Columbia, and we craft high-quality hot tubs and swim spas in our state-of-the-art manufacturing facility. As one of the leading manufacturers globally, we're proud to export our products to over 50 countries worldwide. We've earned numerous awards, including the prestigious Consumers Digest Best Buy award, thanks to our focus on innovation and design.

We understand that each of our customers has unique needs and desires, which is why we've designed our hot tubs and swim spas to meet a variety of needs, from relaxation and stress relief to therapy and rehabilitation. Our products can improve circulation, skin health, and immune systems while promoting weight loss, flexibility, and better sleep. Our hot tubs and swim spas are perfect for year-round use, personal retreats, socializing, and entertaining.

Our hot tubs and swim spas are built with cutting-edge technology and unparalleled quality, which has earned us the reputation of being the "World's Best Built Spas". Our mission is to provide the ultimate hot tub and swim spa experience worldwide.

We're also committed to contributing to a sustainable environment. Our products are not only elegant and functional, but they're also energy efficient. We use energy-efficient manufacturing processes and materials to reduce energy consumption and minimize our carbon footprint.

Thank you for choosing Coast Spas.

OUR GLOBAL FAMILY

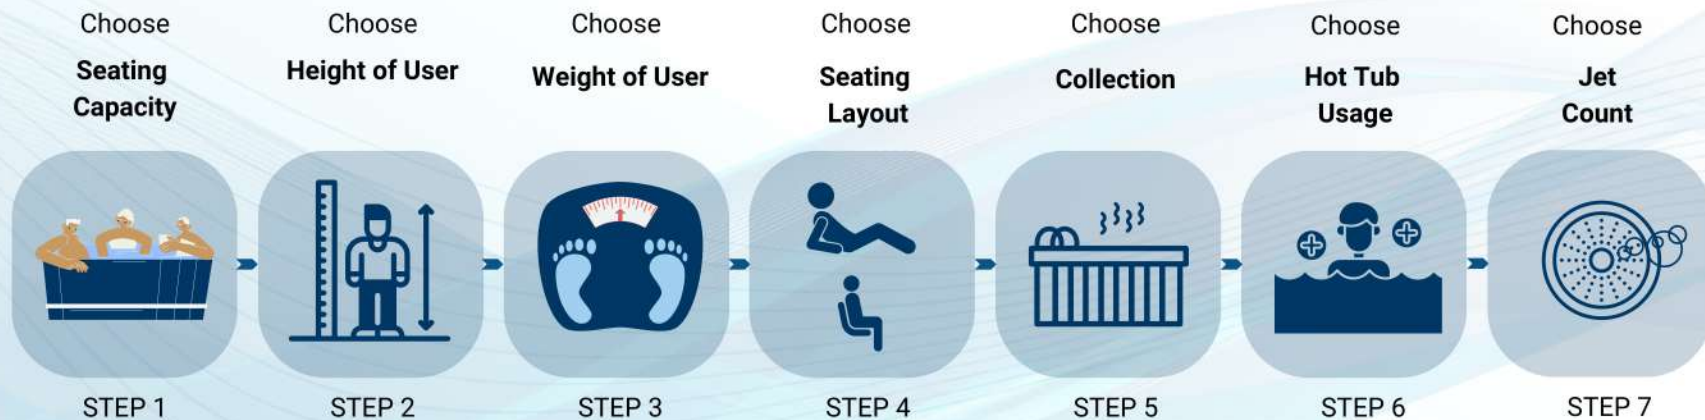

FIND MY COAST SPA HOT TUB

Coast Spas has developed a unique and innovative solution to make the hot tub buying process easier for our customers. Using a proprietary algorithm, we have created a personalized experience for our customers by asking 7 questions related to preferences and needs, including the number of people who will use the hot tub, their height, weight, seating preference, the number of jets, and intended purpose.

This personalized approach allows our customers to easily determine which Coast Spas hot tub is the most suitable for them. By answering these seven questions, the algorithm presents the customer with two options that meet their unique preferences and needs. This approach demonstrates Coast Spas commitment to providing exceptional customer service and satisfaction. By utilizing our proprietary algorithm, Coast Spas can ensure that our customers are getting the best possible hot tub experience tailored specifically to their individual needs. Transform your hot tub buying experience with our personalized journey! Simply scan the QR code and answer a few quick questions about your preferences and needs to get started. No more sifting through endless options or feeling overwhelmed by choices that don't fit your needs. With our personalized journey, you can rest easy knowing that the hot tub solution you choose has been specifically curated to meet your unique preferences and needs. Don't wait, start your personalized journey today and discover the hot tub solution that's perfect for you. Scan the QR code now to get started.

7-Steps to find your perfect Coast Spas Hot Tub

WHY A COAST SPAS HOT TUB TODAY

Relaxation

Coast Spas hot tubs provide a luxurious and relaxing experience with a variety of seating arrangements and power jet configurations.

Stress Relief

The hydrotherapy jets in Coast Spas hot tubs offer a powerful massage experience to help reduce stress and tension in the body.

Pain Relief

Coast Spas hot tubs are designed with different jet placements and intensities to target specific areas of the body and help alleviate pain from conditions like arthritis and back pain.

Muscle Recovery

The hydrotherapy jets in Coast Spas hot tubs can help speed up muscle recovery after exercise and reduce soreness.

Improved Sleep

Coast Spas hot tubs offer a tranquil and serene environment that can promote deeper and more restful sleep.

Socializing

Coast Spas hot tubs come in a variety of sizes and configurations to connect with friends and family.

Improved Circulation

The warm water and jet action in Coast Spas hot tubs can help improve blood flow and circulation throughout the body.

WHY A COAST SPAS HOT TUB TODAY

Health and Wellness

Coast Spas hot tubs are designed to promote physical and mental wellness through hydrotherapy, aromatherapy, and other features.

Increased Home Value

Coast Spas hot tubs are built with high-quality materials and energy-efficient components, making them a worthwhile investment that can increase the value of a home.

Hydrotherapy

Coast Spas hot tubs are specifically designed with powerful hydrotherapy jets to deliver an effective massage experience.

Aromatherapy

Coast Spas hot tubs are available with aromatherapy features that allow users to enjoy the relaxing moments and ignite senses.

Year-round Use

Coast Spas hot tubs are built with efficient insulation and energy-efficient components, making them suitable for all climates and seasons.

Personal Retreat

Coast Spas hot tubs offer a peaceful and relaxing retreat at home to escape from the stresses of daily life.

Improved Mood

Coast Spas hot tubs offer a calming and relaxing experience that can help improve mood and overall well-being.

WHY A COAST SPAS HOT TUB TODAY

Entertainment

Coast Spas transform the hot tub experience into a captivating entertainment retreat with built-in sound systems, mesmerizing LED lighting, enchanting waterfalls.

Improved Skin Health

Coast Spas hot tubs come with filtration systems that help improve skin health by removing impurities and providing a stress-free environment.

Therapy and Rehabilitation

Coast Spas hot tubs can be used as part of a therapy or rehabilitation program after an injury or surgery.

Improved Flexibility

Coast Spas hot tubs hydrotherapy jets are designed to soothe your muscles for improved flexibility and provide you with a rejuvenating soak.

Weight Loss

Coast Spas hot tubs can help support a weight loss program by boosting metabolism and burning calories.

Improved Immune System

The warm water and relaxing atmosphere of Coast Spas hot tubs can help reduce stress and promote relaxation, which can improve the immune system.

Superior Hydrotherapy & Aromatherapy

Experience the ultimate in hydrotherapy with Coast Spas. Discover customizable jets, advanced technology, and ergonomic design for a rejuvenating and personalized spa experience that promotes relaxation and health benefits.

Aromatherapy

Indulge in the ultimate sensory experience and enhance your well-being with our Aromatherapy - Fragrance Injection System, designed to transport you to a state of relaxation and alleviate your daily ailments with just a push of a button.

Acupressure

Inspired by traditional Chinese holistic massage therapy where the neck area is closely related to the hips. Our neck and hip jets massage inflammation and tension away.

Trigger Point Therapy

Influenced by techniques of trigger point massage therapy, our Power Sage Zone provides the ultimate upper back massage that will melt away any tension.

Shiatsu Massage

Experience the ultimate relaxation with our hydrotherapy hot tubs that features tiny massage nodules designed to create a cloud-like sensation as the jets melt away muscle tension.

Swedish Massage

Stimulating circulation to the legs and arms by jetted water imitates the kneading movements, friction and vibration that is given through a classic Swedish massage.

Reflexology

Reflexology has been proven to help organ function by massaging the foot. The AquaSole jet provides a gentle and rhythmic massage all over your feet.

Conserve Energy and Save Money

Coast Spas Green Solutions

Indulge in ultimate relaxation without worrying about expensive energy bills with our energy-efficient hot tubs featuring smart technology. Know your monthly energy cost by scanning the QR code.

The ultimate hot tub performance with M8 control pack technology's AI integration, providing efficient heating, predictive insights, and reduced energy consumption for a quieter, more enjoyable and eco-friendly soak, while extending the lifespan of your Coast Spas Hot Tub investment.

Coast Spas Hot Tubs are innovative, energy-efficient hot tub solutions with intelligent on-demand heaters that save you money and reduce your carbon footprint.

Our latest CTP heat pump technology can efficiently cool and heat your spa water with up to 15x more energy efficiency than traditional heaters, thanks to its 5kw heater size and variable speed compressor with algorithm.

Conserve Energy and Save Money

Coast Spas Green Solutions

The ultimate hot tub cover solution with our custom-made, insulated covers that are up to 3 times stronger and 25% lighter than traditional covers, resulting in a perfect fit and maximum water temperature retention.

Enjoy crystal clear hot tub water while keeping energy costs low with our ultra low Amp pumps, which uses the same power as 2.6 light bulbs when running on 2-hour filtration cycles over a 24-hour period.

FULL FOAM INSULATION

Coast Spas offers the best insulated hot tubs in the industry with CEC rated R-30 full foam insulation, backed by a 1" foam and foil wrapped cabinet, providing maximum heat retention and worry-free energy bills.

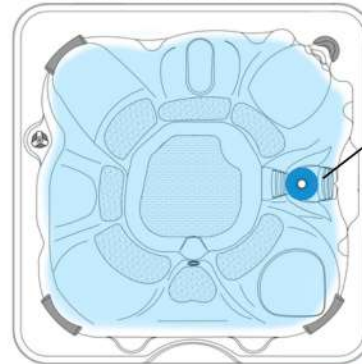

World's Best Filtration System

Coast Spas is proud to offer the world's leading and exclusive Hydro-cyclonic filtration system, a revolutionary technology that is an integrated system that sets the standard for hot tub filtration. Our innovative filtration system works by creating a powerful whirlpool effect that circulates and traps debris, dirt, and other contaminants, leaving your hot tub water crystal clear and sparkling clean. This not only provides an exceptional hot tub experience for you and your guests, but it also helps to save on maintenance and upkeep costs by reducing the need for frequent cleaning and chemical treatments. In addition, our cyclonic filtration system is designed to be low-maintenance, with easy-to-remove filters that can be quickly and easily cleaned or replaced as needed.

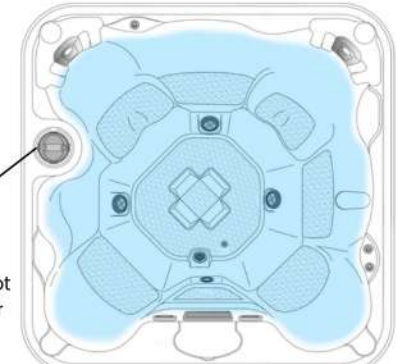

OTHER BRANDS FILTRATION SYSTEM

Water Filtration
inside Hot Tub Water

Other brands use skim filtration which is usually placed under the water to catch debris, but when you pull out the filter for cleaning purpose, it releases debris back to the hot tub water making it **more contaminated**

COAST SPAS COMMERCIAL GRADE FILTRATION SYSTEM

Water Filtration
Outside Hot Tub Water

Coast spas has a separate filtration chamber outside the hot tub water body. It is a **safest and efficient way to keep your hot tub water clean** and filter separated from main water body.

INNOVATION

Coast Spas 7-Step Filtration Process

OVERLOOKING FILTRATION CAN BE HARMFUL

If not properly maintained hot tubs can be a breeding ground for bacteria and other harmful micro-organisms. Filtration helps to keep the water clean by removing debris, such as dirt and leaves, as well as microscopic particles, such as bacteria and viruses. Get the most efficient Commercial Grade Filtration System exclusively in Coast Spas Hot Tubs.

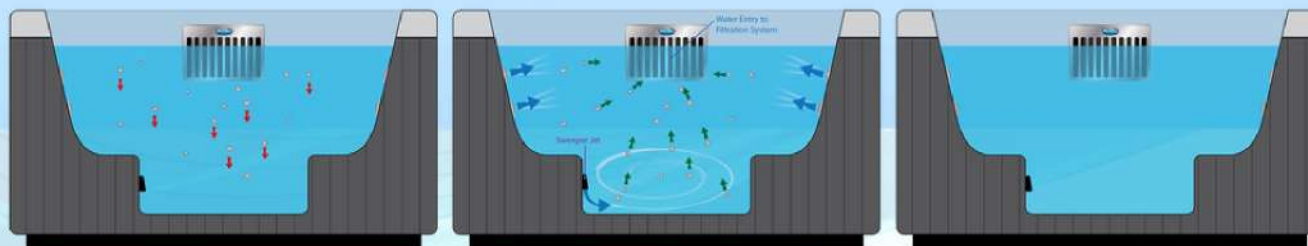

Debris falls on the floor of the Hot Tub

Sweeper Jet pushes debris to Skimmer and Skimmer pushes it to **Coast Spas Exclusive Hydro Cyclonic Filtration**

Filter pushes out fresh and clean water

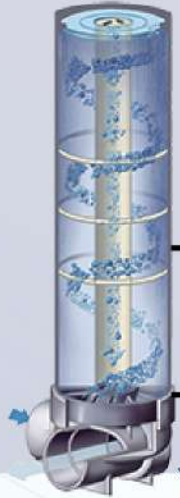

Coast Spas 7-Step Filtration Process

Indulge in the ultimate hot tub experience with Coast Spas unique hydro cyclonic filtration system - enjoy crystal-clear water that's free from debris, maintenance friendly and energy efficient, giving you peace of mind and the clean water you deserve. We prioritize low maintenance costs and pure water. Our technology extends water life, saving on chemicals and energy needed to drain and refill the hot tub, so you can relax and enjoy without worrying about upkeep

Coast Spas Filtration Chamber

Water going to the top of the filter passing through the Dual-Core Filter

Cyclonic Blades Pushing water up side to utilize the maximum filter cartridge and filter more water

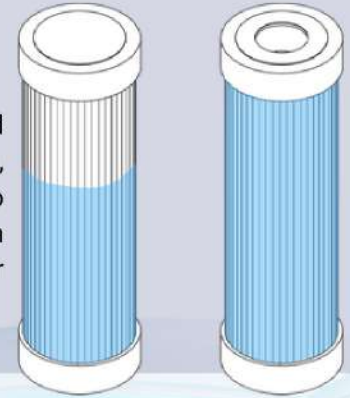

5 SEPARATE CANISTER WITH CYCLONIC BLADES
Cyclonic blades push the water further up into the filter for maximum coverage and more efficient cleaning.

Only Half of the Filter utilized in other brands system, whereas, Coast Spas Hydro Cyclonic Filtration System utilize the whole filter providing better purification.

Exclusive to COAST SPAS Hot Tub

Only Half Utilized Other Brand Single-Core Filter **Fully Utilized Coast Spas Dual-Core Filter**

6 O3ONE ULTRAZONE
O3 One Advance plasma Discharge Ozone that attaches itself to bacteria, destroys the cell wall and eliminates the contaminant.

7 ECO CLEAN UV STERILIZER
Ecoclean UV Sterilizer which uses ultraviolet light that is calibrated to a specific light spectrum to effectively eradicate 99.9 percent of all bacteria.

Discover the “World's Best Built Spa” with Coast Spas

Our commitment to industry leading durability and reliability is unparalleled, using only the highest quality and environmentally friendly materials from North America to withstand harsh weather conditions, chemical treatments, and UV rays, ensuring longevity and peace of mind for years to come. With advanced manufacturing techniques and rigorous testing processes, every Coast Spas hot tub undergoes 100% final water testing and quality control to meet world-class standards of performance and excellence.

Coast Shield™

 Eco-Friendly

It is a proven and high performance adhesive that provides strong and durable bonding.

Eliminating volatile organic compounds (VOCs) can improve air quality, reduce health risks for workers, and minimize environmental pollution.

Eliminating styrene toxicity can result in safer working conditions, reduced health risks for workers, and improved environmental sustainability.

It can give a smoother surface for better seals on jets or drains, which results for no leakage.

Coast Shield is a two component polyurethane designed specifically as an environmental friendly alternative to polyester resins and FRP.

Electronic Quality Control system to standardize weights and provide a quality control process

Freeze Protection

We understand how important it is for you to have a worry-free hot tub experience, which is why our hot tub pack is designed to automatically activate freeze protection mode and keep the pump running in case of a temperature drop to prevent any potential freeze-ups.

Pressure Treated Frame

At Coast Spas, we prioritize our customers satisfaction by using pressure treated lumber to protect against moisture damage and ensure the longest possible lifespan for our hot tub frame.

Quick Access Gate Valves

Our Coast Spas Hot tubs are designed with Gate Valves for your convenience, making maintenance and cleaning easy without the need to drain water, ultimately saving you time, money, and energy.

Titanium Heater

Experience the benefits of a titanium heater element that resists corrosion and mineral build up, providing you with a longer lasting and more efficient heating solution.

Super-Sealed™

At Coast Spas, we prioritize our customers by utilizing the latest and most reliable manufacturing techniques, ensuring problem-free plumbing connections for years to come in our Coast Spas Hot Tubs through secure fitting, priming, gluing, and barbing techniques.

Formed Equipment Enclosure

Ensure the longevity of your hot tub equipment with our specially designed custom-formed enclosures that provide complete protection and security for all your valuable electronics.

EXCLUSIVE & INNOVATIVE FEATURES

Infinity Edge (Patented)

Coast Spas offers a uniquely designed infinity edge, allowing you to enjoy breathtaking panoramic uninterrupted view of the landscape without safety concerns or water displacement. Unlike traditional hot tubs, Coast Spas infinity hot tubs have zero water displacement and are self-purging, making it easier to operate. The infinity edge design also includes the world's largest skimmer, ensuring a clean and debris free experience. When you invest in a Coast Spas infinity edge hot tub, you are not only getting a visually pleasing hot tub but also a functional and operational one. This unique hot tub design allows for a worry-free and enjoyable experience for its users

Our exclusive water feature stretches two feet across and is fully adjustable. With a seat directly underneath the waterfall you can sit with the warm water gently cascading over the back of your neck, shoulders, and upper body providing soothing sensations and sounds that melt away all your stress and worries. The LED lighting enhances the ambiance and experience unlike anything else.

24" Waterfall

AquaSole™ Foot Massage Jet

The AquaSole™ Foot Massage Jets in the foot-well or in the floor of many of our models that provide gentle and rhythmic massage from the top of your toes, through the arch and to the bottom of your heels. Simply press your feet against these jets and let the gentle swirling water action work all the areas of your feet.

Coast Cubby™

The Coast Cubby™ is made of marine-grade materials and is perfect for storing items and keeping them warm and dry. Featuring a dedicated fan for warm ambient air circulation and an integrated interior light for night use.

Coast WaterVac™

The Coast WaterVac™ System drains your spa water faster and easier than ever before. Simply open your Coast Cubby, lift the bottom up to access the optional shrink hose, then turn on the water evacuation pump. This innovative feature will save you time and make refreshing your spa water an easy task.

Coast Connect™ Universal Fitting

Connection that is installed in the floor of your Spa. The Coast Connect Universal Fitting allows you to connect and disconnect Coast Connect Accessories. When not in use, the Coast Connect Universal Fitting serves as both an underwater light (when a lighting package is installed) and a unique water-only foot massage jet.

EXCLUSIVE & INNOVATIVE FEATURES

Entertainment System

BBA3 Integrated Bluetooth System - 4 Flushmount Speakers w/ Subwoofer Connect your Bluetooth device and stream your music directly to your spa. Control your music directly from your spas touchscreen controls and leave your phone inside! System comes with four flush mounted speakers and subwoofer.

Large Touch Screen Control

At Coast Spas, we strive to make your relaxation experience effortless and enjoyable with our hot tubs featuring user-friendly intuitive controls that provide complete control over temperature, jet strength, lighting, and more, allowing you to easily create the perfect ambiance and experience for any occasion.

Sleek Corners

Experience the ultimate sustainability with our fully recyclable and eco-friendly Sovereign carbon fiber corners, which leave no carbon footprints behind, at the same time providing durability and sleek aesthetics.

Coast Status and Refresh Button

Experience ultimate convenience with Coast Status - keep track of your hot tub's readiness from afar with just a glance at the status light, without the hassle of lifting your cover.

Refresh Button - At the simple touch of a button the refresh button allows you to run a filtration cycle without even opening your hot tub up. Simply push the button and walk away and your Coast Spas hot tub will be clean and ready to use when you want.

Control My Spa

ControlMySpa™ App with Alexa and Google intelligent voice control brings you the best in personal comfort and ease of use. You don't even need to get up, simply speak a command to Control the lights, set the temperature, activate the jets, and enjoy an uninterrupted soaking experience. so much more from your smart device! Now available with NEW features including set up schedules and push notifications all conveniently at your touch via the Coast Spas app on your smart device! Make your Coast Spas Hot Tub the latest smart addition to your home!

Coast Guard Bottom

Spas with the Coast Guard Bottom have a nearly indestructible base that offers the very best protection against moisture penetration. Moisture penetration can have adverse affects on the the structural and electrical components of your Hot Tub. In addition to offering protection from moisture, the Coast Guard Bottom also provides a shield from rodents and insects.

COMFORT

Plush Headrests

Our luxurious headrests allow you to enjoy the ultimate comfort while in your Coast Spas hot tub. Cradling your head allows you to release the tension from your neck maximizing the benefit of your hydrotherapy.

Relax in our hot tub with ample personal space thanks to our large, deep footwells designed to ensure maximum comfort and allow for easy maneuvering between seats in our hot tub.

Large Footwells

Ergonomic Seating

Our seating is specifically engineered to provide you with maximum comfort and support, featuring advanced technology and strategic jet placement.

With a multiple cup holder integrated into your hot tub, you never need to be too far away from your beverage.

Beverage Holders

Anti-Slip Textured Floor

Allows for ease of entrance and exit and provides secure freedom of movement while in your hot tub.

Our ergonomically designed non-float lounge allows you to put your feet up while enjoying a complete massage and limits the ability for you to "float out" of your seat.

Non-Float Lounger

COAST SPAS WATER CARE

Enjoy a hot tub and swim spa experience that is clean, clear, and stress free with Coast Spas commitment to water care. We understand that maintaining proper water balance and cleanliness is essential to ensure the longevity and overall enjoyment of your hot tub or swim spa. That's why we offer a range of specially formulated water treatment chemical products designed to make water care easy and stress-free. By following the four recommended pillars of water care and using our recommended products, you can relax and enjoy your hot tub and swim spa year-round, knowing that your water is clean and clear. Enhance your hot tub and swim spa experience and protect your investment by prioritizing water care with Coast Spas.

Four Pillars of Water Care:

Water Monitoring

Keeping an eye on your hot tub or swim spa water is essential for a clean and hygienic experience. By regularly testing and monitoring the water's chemistry, you can make sure it's properly balanced, free from harmful bacteria and contaminants, and hygienic for you to use. If you don't monitor the water quality, it could cause skin irritation, respiratory issues, and other health concerns. Plus, regular water monitoring helps your hot tub or swim spa last longer by preventing damage caused by improper chemical levels or buildup of contaminants. Keep your water clean and healthy by monitoring it regularly.

Sanitation System

A clean and healthy hot tub or swim spa is essential for a great experience. That's why having a proper sanitation system is crucial. It helps prevent the growth of harmful bacteria and other microorganisms that can cause infections and illnesses. Sanitation also ensures that the water stays clean, clear, and hygienic for your use, while also keeping the hot tub and swim spa components in good shape for a longer period of time. If you don't maintain a clean and sanitary hot tub or swim spa, it can lead to unpleasant odors, skin irritation, and other health hazards. To prevent this, it's important to establish a regular sanitation system that includes appropriate chemical treatment from Coast Spas, monitoring the condition of your filtration system, and regular cleaning.

Water Balance

Having balanced water in your hot tub or swim spa is super important for a few reasons. Firstly, it keeps the water clean and clear, so you can enjoy a healthy and safe soak without worrying about any harmful bacteria or contaminants. Secondly, it helps protect your hot tub or swim spa equipment and surfaces from damage caused by corrosion or scaling. And lastly, balanced water ensures a comfortable and hygienic experience for you and your loved ones. If the water is imbalanced, it can cause skin irritation, eye irritation, and other health issues.

Pre-Care

Taking care of your hot tub or swim spa before use is just as important as maintaining it regularly. Using special chemicals is essential for ensuring clean, clear, and healthy water for bathers. It helps to prevent the growth of harmful bacteria and algae and prolongs the life of your hot tub and swim spa components. By balancing the water's pH level, total alkalinity, and calcium hardness, you can make sure that the chemicals from Coast Spas you add to the water are effective and that the water is safe and comfortable for bathers. It's also important to test the water's chemical levels regularly to catch any imbalances early on and avoid bigger problems later.

COAST SPAS CARE SALT WATER SYSTEM™

The Coast Spas Care Saltwater System is an innovative water care solution that is easy to use and takes a natural and gentle approach to hot tub water maintenance. Over 3 years in the making, from research, design and testing the system generates chlorine from salt, you won't need to worry about harsh chemicals making hot tub maintenance incredibly easy. The Coast Spas Care Salt Water System generates chlorine from a small amount of salt that is added and distributed evenly throughout the water, keeping it clean and free of harmful bacteria. The system also balances the pH levels of the water. This means you won't need to constantly measure out chemicals and adjust the water levels, freeing up more time for you to enjoy your hot tub. It is easy to program and use not only for experienced hot tub users but also for those first time buyers.

Benefits of Coast Spas Care Salt Water System™

- Natural and Gentle Approach to water maintenance – the system consistently monitors the pH & chlorine levels, so it only produces what is needed so there are fewer chemicals in the water which helps reduce the water maintenance time and makes the water last longer. This also reduces costs and the number of times draining and filling is required conserving an important natural resource. The other benefit is there isn't residual chlorine that can often smell and irritate the nose, eyes and skin so bathers have a more natural hot tub experience and enjoy the hot tub more often and for longer periods of time.
- Floating in salt water is made easier because of its higher density compared to unsalted water. This increased buoyancy lessens the effect of gravity on joints and muscles, providing relief and relaxation to the body and mind. Spending just 20 minutes in a hot tub daily can transform muscle tension into comfort, calm a restless mind, and enhance overall wellness.
- Easy to Use – With simple instructions and easy to read and use controls, it is easy to use and understand whether you are a novice or experienced hot tub user.
- The Coast Spas Care Salt System is an integral component of every 2023 Coast Spas Opulence Series hot tub. With its pre-plumbed design, the system doesn't need any extra or unattractive plumbing materials. You only require a start-up kit to get the system up and running. This ensures reliability, preserves the hot tubs appearance, and helps to keep the system cost-effective.

* It is highly recommended to read the Coast Spas Care Salt Water System® manual before operating and maintaining. You can also see the video by scanning the QR Code.

COAST SPAS CARE SALT WATER SYSTEM® REQUIREMENTS

The best salt is a food-quality granulated salt, a 99.9% pure salt or solar salt. These types of salt can be purchased from Coast Spas and are designed for use with chlorine generators. Do not use rock salt, iodized salt or salt with anti-caking additives. Do not use salt with more than 1% yellow prussiate of soda. The optimum salt level is between 2000-2500 ppm. Use the chart below to determine the amount of salt for your hot tub. The column on the left is the amount of water in your hot tub. The row on the top is the current salt level measured in your hot tub. Always check your salt level before adding salt to the spa even if this is your first time. Prior use of liquid chlorine and tablets could have caused an increase in salt levels. Salt should not be removed from the hot tub water unless the salinity exceeds 4000 ppm or the salinity of the water is undesirable. The only way to remove salt is by draining the water and adding fresh water.

Salt Table I: Amount of salt needed to achieve 2000 - 2200 ppm level in your spa.

Spa Size in Gallons/ (Liters)	Salinity (ppm) measured in SPA						
	0	500	1000	1500	2000	2500	3000
378 Litres (100 Gallons)	1.0 kg (2.1 lbs)	0.8 kg (1.7 lbs)	0.6 kg (1.3 lbs)	0.4 kg (0.8 lbs)	0.2 kg (0.4 lbs)	0	0
757 Litres (200 Gallons)	1.9 kg (4.2 lbs)	1.6 kg (3.4 lbs)	1.2 kg (2.6 lbs)	0.8 kg (1.6 lbs)	0.4 kg (0.8 lbs)	0	0
1135 Litres (300 Gallons)	2.8 kg (6.3 lbs)	2.3 kg (5.0 lbs)	1.7 kg (3.8 lbs)	1.1 kg (2.5 lbs)	0.6 kg (1.3 lbs)	0	0
1514 Litres (400 Gallons)	3.8 kg (8.4 lbs)	3.0 kg (6.7 lbs)	2.3 kg (5.0 lbs)	1.5 kg (3.3 lbs)	0.8 kg (1.7 lbs)	0	0
1892 Litres (500 Gallons)	4.7 kg (10.4 lbs)	3.8 kg (8.4 lbs)	2.8 kg (6.3 lbs)	1.9 kg (4.2 lbs)	0.9 kg (2.1 lbs)	0	0
2271 Litres (600 Gallons)	5.7 kg (12.5 lbs)	4.5 kg (10.0 lbs)	3.4 kg (7.5 lbs)	2.3 kg (5.0 lbs)	1.1 kg (2.5 lbs)	0	0

Salt Table II: Amount of salt needed to achieve 3000 ppm level in your Swim SPA.

Swim Spa Size in Gallons/ (Liters)	Salinity (ppm) measured in Swim SPA						
	0	500	1000	1500	2000	2500	3000
3780 Litres (1000 Gallons)	11.3 kg (25 lbs)	9.5 kg (21 lbs)	7.6 kg (17 lbs)	5.7 kg (13 lbs)	3.8 kg (8 lbs)	1.9 kg (4 lbs)	0

Note : Turn the device off before adding sodium chloride and other chemicals and wait until complete dissolution before turning it on

COAST SPAS CARE SALT WATER SYSTEM® REQUIREMENTS

STABILIZER (CYANURIC ACID) LEVELS

Cyanuric Acid/Stabilizer/Conditioner (Required with uncovered outdoor hot tub only) Cyanuric acid, CYA, (also known as stabilizer or conditioner) prevents rapid breakdown of chlorine by direct sunlight. Maintain CYA concentrations between 50-80 ppm by diluting with fresh water. Regulations may exist regarding use of Cyanuric acid in hot tubs; please consult with your certified technician. Use the following chart to determine the amount of Cyanuric acid needed. Test water with a test kit that includes CYA testing, then use the table below to determine the amount to add.

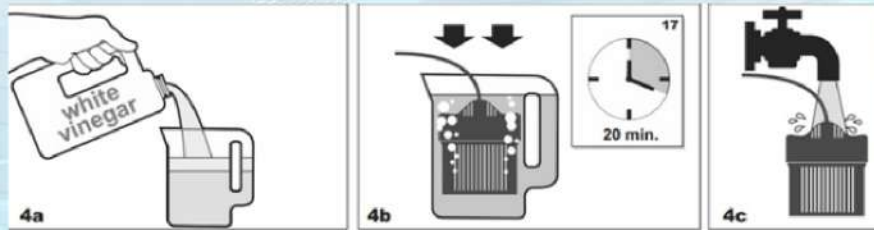

Note: Indoor spas do not require the addition of CYA.

Spa Size in Liters (Gallons)	CYA (ppm) Level Before Addition						
	0	15	30	45	60	75	80
378 Litres (100 Gallons)	28 g (1.0 oz)	23 g (0.8 oz)	17 g (0.6 oz)	11 g (0.4 oz)	6 g (0.2 oz)	0	0
757 Litres (200 Gallons)	57 g (2.0 oz)	45 g (1.6 oz)	34 g (1.2 oz)	23 g (0.8 oz)	11 g (0.4 oz)	0	0
1135 Litres (300 Gallons)	85 g (3.0 oz)	68 g (2.4 oz)	51 g (1.8 oz)	34 g (1.2 oz)	17 g (0.6 oz)	0	0
1514 Litres (400 Gallons)	113 g (4.0 oz)	91 g (3.2 oz)	68 g (2.4 oz)	45 g (1.6 oz)	23 g (0.8 oz)	0	0

UNIT MAINTENANCE

Inspecting the Cell - The cell should be inspected every 3 months. Unplug the Coast Spas Care Salt Water System from the GFCI socket. Inspect the cell for scaling (white, sugar-like) deposit. If scaling exists, the cell should be cleaned.

Cleaning the cell - Clean the cell, make sure the power supply is not plugged into the socket. A large cup should be used. Fill the cup with enough white vinegar to submerge the entire cell. Place the entire cell into the cup for 20 minutes. Remove the cell and make sure all scaling is gone. If the scaling remains, repeat the process. After the scale is removed, rinse the cell with fresh water.

WATER CARE CHEMICALS AVAILABLE FROM COAST SPAS for Canada

Sanitize

Keep your hot tub water clean and hygienic with Sanitize, the highly effective dichloride-based sanitizer recommended by some hot tub manufacturers and maintain a chlorine level of 3-5 ppm to control bacteria and algae

Shock

Revitalize your hot tub water with Shock, the nonhalogenated oxidizing agent that eliminates nitrous waste buildup, reducing the need for excessive disinfectant use.

pH Up

Ensure optimal hot tub water balance with pH Up, which raises pH levels to the recommended range of 7.2 - 7.8 for a refreshing and relaxing hot tub experience.

pH Down

Maintain optimal pH levels in your hot tub with pH Down, keeping it within the recommended range of 7.2 - 7.8.

Brominating Tablets

Keep your hot tub sparkling clean and healthy with our easy-to-use Brominating tabs, which can be dispensed through an adjustable floating feeder to maintain the optimal level of 3-5 ppm bromine.

Calcium Booster

Maintain optimal calcium hardness levels with Cal to ensure the longevity and efficiency of your Hot tub.

EZ-Brom

With Ez-Brom, you can achieve instant and hassle-free sanitization of your pool or hot tub by adding it directly to the water while the circulation system runs and maintains a residual level of 3-5 ppm with daily testing.

Harmonize

Enjoy a premium hot tub experience with Harmonize, the specially blended product that removes impurities, clarifies water, and leaves your skin feeling soft and silky, without increasing pH.

Mini Pucks

Keep your hot tub water clean and clear for days with Mini Pucks slow release and stabilized chlorine formula, easily dispensed through a floating feeder or skimmer basket.

Filter Free

Achieve a deeper clean for your cartridge filters with Filter Free, as it effectively removes oils, dirt, and scale when mixed with water, just remember to thoroughly rinse the filter after use.

Clean

Experience a powerful and efficient clean with our low-sudsing formula that effectively removes dirt and stubborn calcium spots.

Stain & Scale

Protect your heater and prevent scale buildup with Stain & Scale, the eco-friendly weekly solution that contains no phosphates.

WATER CARE CHEMICALS AVAILABLE FROM COAST SPAS for Canada

Wipe Out

Enjoy a healthier and more comfortable hot tub experience with our product that quickly reduces chlorine and bromine levels in your hot tub water.

Scum Free

Keep your Hot tub sparkling clean and clear with Scum Free, the enzyme-based solution that eliminates oils and biofilm, improves water quality, and extends the time between draining cycles.

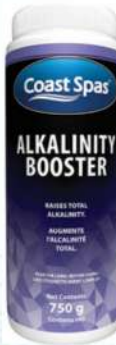

Super Clarifier

Experience crystal clear hot tub water with Super Clarifier, the weekly treatment that eliminates oils and cloudy particles while remaining eco-conscious with its chitosan-based formula.

Defoamer

Say goodbye to unwanted hot tub foam with Defoamer – a reliable and gentle solution that tackles foaming caused by a range of factors, from water imbalances to personal care product residue.

Alkalinity Booster

Keep your hot tub water in perfect balance with Alkalinity Booster, which ensures total alkalinity levels stay between 100 - 130 ppm for a clean and enjoyable soak experience.

Cover Care

Protect and revitalize your hot tub cover from the damaging effects of the sun with Cover Care - the all-in-one solution that restores and cleans for a longer lasting, healthier hot tub cover experience.

Shine

Protect your hot tub and keep it looking new with our silicone-based sealer, polish, and cleaner that defends against chemicals, temperature changes, and sunlight; simply apply as needed.

Spa Soft Supreme

Experience crystal clear water with reduced skin and eye irritation using Spa Soft Supreme, a compatible water conditioner and enhancer for all types of algacides and sanitizers.

Whirlpool & Tub Rinse

Ensure the longevity and efficiency of your hot tub with our powerful cleaning and degreasing solution, designed to tackle tough build-up, and maintain your equipment with ease.

SaltUp

Elevate your spa experience with Coast Spas Saltup – the effortless luxury of salt chlorination. Immerse in pure, silky water, as Saltup combines innovation and tranquility for a maintenance-free, therapeutic oasis.

Bromine Kit

Chlorine Kit

WATER CARE CHEMICALS AVAILABLE FROM COAST SPAS for USA

Chlorine

Keep your hot tub water clean and hygienic with Chlorine, the highly effective dichloride-based sanitizer recommended by some hot tub manufacturers and maintain a chlorine level of 3-5 ppm to control bacteria and algae

Spa Shock

Revitalize your hot tub water with Spa Shock, the nonhalogenated oxidizing agent that eliminates nitrous waste buildup, reducing the need for excessive disinfectant use.

pH Up

Ensure optimal hot tub water balance with pH Up, which raises pH levels to the recommended range of 7.2 - 7.8 for a refreshing and relaxing hot tub experience.

pH Down

Maintain optimal pH levels in your hot tub with pH Down, keeping it within the recommended range of 7.2 - 7.8.

Clear Spa

Experience crystal clear hot tub water with Clear Spa, the weekly treatment that eliminates oils and cloudy particles while remaining eco-conscious with its chitosan-based formula.

Foam Away

Say goodbye to unwanted hot tub foam with Foam Away – a reliable and gentle solution that tackles foaming caused by a range of factors, from water imbalances to personal care product residue.

Alkalinity Up

Keep your hot tub water in perfect balance with Alkalinity Up, which ensures total alkalinity levels stay between 100 - 130 ppm for a clean and enjoyable soak experience.

Achieve a deeper clean for your cartridge filters with Filter Soaker, as it effectively removes oils, dirt, and scale when mixed with water, just remember to thoroughly rinse the filter after use.

Hot Tub Scrub

Ensure the longevity and efficiency of your hot tub with our powerful cleaning and degreasing solution, designed to tackle tough build-up, and maintain your equipment with ease.

Stain Control

Protect your heater and prevent scale buildup with Stain Control, the eco-friendly weekly solution that contains no phosphates.

HOT TUB ACCESSORIES

Covers

Coast Spas Weather-shield Fabric is a superior alternative to traditional vinyl covers, offering 25% lighter, 3x stronger, tear and abrasion resistant, PU backed and waterproof. It is also environmentally superior, made with recyclable materials and highly resistant to UV, mildew, and mold. with 25% less weight, it puts less pressure on cover lifts, making it easier to handle.

*Each cover is custom designed for each model for correct fit for energy efficiency, look, and design. Click the QR code to reorder Coast Spas custom cover.

Foam Cores

- Virgin Foam provides a stronger and more durable energy efficient cover.
- Variety of weights and tapers to choose from depending on your climate.
- Recyclable and environmentally safe.

Certification

Coast spas hot tub covers meet or exceed all safety requirements and are certified by ASTM International for product compliance. Our hot tub covers are made to meet high standards for quality and performance, ensuring the safety of our customers.

Moisture Barrier

Scientifically formulated plastic, Antaeus 2000, is far more resistant to water vapor transmission than ordinary plastics. Sealed with state-of-the-art impulse sealing equipment

Covers Construction

Covers Construction
