# THINK SPA, THINK WELLIS

## THE NEW LEVEL OF SPA EXPERIENCE

We as the leader spa manufacturer in Europe, put our focus on quality and innovation as our key success factor within the industry. With the latest smart spa solutions and innovative massage experience weightily recommend and introduce our products to the US market.

“Be part of the Experience”

Our corporate mission is to provide the best quality product, with the best massage, and relaxation experience, on a competitive price to our customers. All the 500 employees, with 2 factories, within the Wellis family works for the same goal every day, and that is to bring the Wellis wellness experience into your home.

Since the company was founded in 2003, more and more people choose Wellis experience. products throughout Europe. With the pursuit of a healthy lifestyle, the demand for quality wellness products is on the rise. Thanks to continuous growth and development, Wellis is now the largest spa manufacturer in Europe.

Spas, swim spas and their thermal covers, and side panels are produced with the involvement of more than 500 people, in 2 production halls on altogether 190 000 sq.ft. area, equipped with enormous, cutting edge manufacturing tools, was motivated by the rising demand of the market, and the pursuit of quality manufacturing technology.

Finished goods are stored in several warehouses, altogether 110 000 sq.ft. in the same area.

There is no better proof for the international recognition Wellis receives than the awards our products collect at numerous international expos. This represents the results of excellence and quality, and more than 10 years worth of professional

# WELLIS

## INNOVATION-QUALITY-PERFORMANCE

Let us inform you about what the largest European manufacturer, Wellis has to offer to you.

- Wellis has the largest market share in the European outdoor spa industry since 2015. With more than 10.000 pieces of spas produced in 2017, we are covering 12.5% of the European spa market.
  - Wellis is producing its own top quality European made spa products at competitive prices.
  - Wellis is using a unique 2.25 in thick polyurethane reinforced acrylic material for the shell from Lucite (USA).
  - Wellis is cooperating with the Gecko Alliance Group, spa pump, and control system producer company, which is the leading manufacturer of the world. They are manufacturing in Canada.
  - Wellis is offering a 10-year warranty on the spa shell, 7 years for the Lucite acrylic surface, and 3 years warranty on pumps and spa cabinet.
- 
- The Wellis factory is located in the middle of Europe. That means fast and safe delivery at a favorable price.
  - Wellis has a warehouse with over 150,000 sq. ft. in which we are usually storing more than 1500 spa and sanitary products in stock to serve urgent orders quickly.
  - Wellis is offering exclusive marketing support for its partners. Showroom decoration and design, professional commercial materials, HD videos, photos, and online marketing support.
  - Wellis has its own service support department with an online fault report system and also possibilities to host trainings for our partners' employees.
  - Wellis belongs to the most innovative manufacturers. We have developed online communication and ordering system, the Wellis Online System (WOS). We are handling 100% of the incoming orders online.
  - Wellis is offering a secured payment method with USD currency.

# STANDARD FEATURES

Dependant on Spa Model

WHEN HIGH QUALITY MEETS FRESH & CLEAN DESIGN

### SHOULDER MASSAGE & HEADREST

Takes your daily stress off your shoulder and neck. Advanced ergonomics, more comfortable design.

### LIGHTING FOUNTAIN JETS

3 fountain jets triple the fun and design in your spa.

### MYMUSIC™ SOUND SYSTEM

Improved bluetooth signal range, stylish speakers, with new subwoofer - 100 W (subwoofer is available only in CityLine models).

### AQUASOUL PRO™ SOUND SYSTEM

The sound system features top quality waterproof elements with new subwoofer (100 watts).

### W-SIDE CABINET CORNERS

New design, more precise and easier fitting, thanks to the new technology.

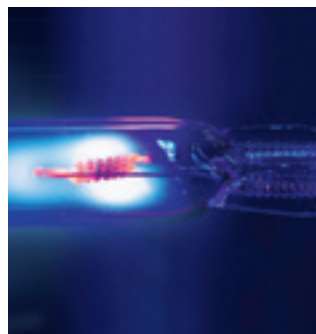

### STARSLIDE CABINET CORNERS

The cabinet is produced of horizontal side, wood-textured elements and vacuum-formed ABS plastic corner pieces with built-in LED lighting.

### NEW IN.TOUCH 2 APP

Our service engineers have remote access to your spa, so not only the user can control the spa.

### UV-C WATER SANITIZER

Disinfects water efficiently and safely.

StandardCityLine, PeakLine

### OZONE WATER SANITIZER

The ozone is pre-mixed with circulating water, this neutralizes any bacteria, viruses and other contaminants.

**WPS CABINET FRAME**

(WPS-Wellis Polystyrol) The special polymer ensures exceptional stability and life for the Spa's structural frame

**CIRCULATION PUMP**

We build the new W-EC pump as a standard equipment into our spas.

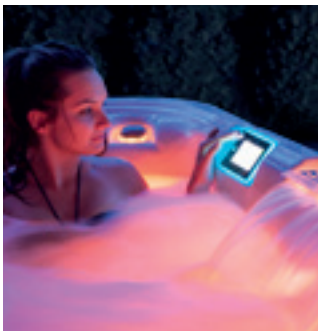

**CHROME JETS**

Enter the future with the new Wellis jet designs.

**SCANDINAVIAN INSULATION**

Multi-layered polyfoam insulation under the rim and between the floor pan and the spa cabinet makes your spa cost-efficient.

**COLOR THERAPY MOOD LIGHTING**

In our spas the colour therapy means not only the exclusive LED light in the shell, but also includes the light of the diverters and regulators.

**LIGHTING WATERFALL**

Sit under the cascading water and enjoy a soothing neck and shoulder massage.

**AROMATHERAPY**

When combined with the Wellis hydro massage system the aromatic scents can enhance your mood, and aid deep relaxation

**SMART TOUCH CONTROL PANEL**

Full featured keypad with color capacitive touch screen display.

Wellis® | 2022 | INTRODUCTION

# WELLIS SMART TOUCH

## CONTROL PANEL

Introducing our full-featured keypad with color capacitive touch screen display. Parting ways with physical buttons, keys, and overlays, our touch screen keypad is fun to use, simple to learn, and it features an intuitive and engaging, one level menu interface.

### AUDIO

On certain models with its seamless integration of connected value-added accessories, in.k1000 allows users to enjoy the in.stream 2 audio stations through a truly interactive interface that features full control of audio sources, volume and settings, and display of song tag information.

### COLOR

Colors can be set to fade gently through the spectrum or, by a simple touch of the spa's control panel can be fixed on the single color most suited to your mood.

### SPA

The home page will be displayed with its equipment start or stop icons, up and down buttons, water temperature, messages and quick access to display options:

- display orientation
- display contrast

### SETTINGS

In the Settings page you can access the following:

- water care
- maintenance
- date & time
- keypad
- electrical configuration
- wifi
- miscellaneous
- about

### IN.TOUCH - WIFI

In.touch 2 eliminates all the complexities of connecting your spa to the Internet and transforms your smartphone or tablet, into your ultimate mobile remote control

Warranty: 5 Year

# CABINET & CORNER | ACRYLIC

TIMELESS APPEARANCE

## W-SIDE CABINET

No more sanding, oiling and messy maintenance of a traditional timber cabinet. Our spa cabinets are made of a UV resistant polymer material, that looks as good as real wood but it is entirely maintenance free. The contemporary colors suit both interior and outdoor settings.

## W-SIDE CORNER ELEMENT

The W-Side cabinet is a new invention. It is produced of horizontal side, wood-textured elements, and injection molded ABS plastic corner pieces. The built-in RGB LED light works in conjunction with mood lighting inside the pool. Available in black, gray and brown colors.

## ACRYLIC COLORS

We have a wide range of 3 beautiful shades acrylic for our spas that will harmonize with any setting – indoors or out as well.

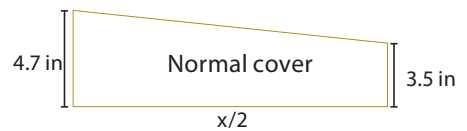

# WELLIS THERMAL COVER

PROTECTION ENERGY EFFICIENCY | SAFETY

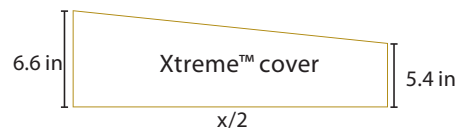

We manufacture all our own covers to ensure consistent quality and the highest level of thermal insulation effectiveness. This helps to keep our customer's energy costs to a minimum. Our covers include features like a full-length hinge buffer seal, internal vapor seal, and a marine grade UV resistant outer cover. The top surface slopes like a house roof so that rain can easily run off.

The Xtreme™ winter spa covers are in general 1.9 in thicker than traditional thermo covers. It is recommended for users who wish to benefit from the positive effects of hot bathing even during cold winters.

# WELLIS COLOR THERAPY

ENTERTAIN | SOOTHE | RELAX

Choose your color due to your mood

## COLOR THERAPY MOOD LIGHTING

Much scientific research has been carried out to identify the particular beneficial effects of each part of the color spectrum. The application of this knowledge is now known as chromotherapy and is widely used for helping with relaxation, destressing and mood enhancement.

In our spas, we call this mood lighting. Colors can be set to fade gently through the spectrum or, by a simple touch of the spa's control panel can be fixed on the single color most beneficial to your mood.

# WELLIS SMARTPHONE APPLICATION

## IMMEDIATE ACCESS AND REMOTE CONTROL

The Wellis SmartPhone application is a development for our massage spas. You can access the control system of your Wellis spa any time from anywhere. You can set the water temperature and circulation and you can even check the current status of the spa.

Control your spa from home or while you are on the road with the Wellis Smartphone app! Available for both iPhone and Android smartphones. Set the desired temperature and other functions from your phone, before you arrive over to the holiday house so that by the time you arrive you will have a heated, ready-to-use spa waiting for you, providing you all the benefits and positive effects of a Wellis hydromassage experience.

### IN.TOUCH 2 APPLICATION

We are in a modern world, where everything is supposed to be intuitive and user-friendly. For spa owners who want to connect their spas to the internet, it's easy to get lost in a large clutter of setups and configurations.

Spa owners need a solution coming with the simplest of setups possible.

In.touch 2 eliminates all the complexities of connecting your spa to the Internet and transforms your smartphone or tablet, into your ultimate mobile remote control.

In.touch 2 streamlined iOS or Android application makes it very easy to control and program functions and features of your spa from your smartphone or your tablet, even when you're away from home. Push notifications will always keep you informed on the status of your spa, even when your app is not open.

# SOUND SYSTEM

## FOR AN EVEN PLEASANT EXPERIENCE

Each Wellis sound system features the newly developed, top quality waterproof elements. You no longer need to bother with CDs, MP3 players or any other cable connected devices because the built-in receiver is Bluetooth so its even connectable via your mobile phone.

### AQUASOUL™ PRO 4.1

4-channel amplifier with a Bluetooth receiver | Waterproof controller within the spa cabinet | Subwoofer (100 W) 4 built-in speakers

### MYMUSIC™ 2.1

2-channel amplifier with a Bluetooth receiver | Waterproof controller within the spa cabinet | Subwoofer (100 W) 2 built-in or Pop-up speakers

### MYMUSIC™ 2.0

2-channel amplifier with a Bluetooth receiver | Waterproof controller within the spa cabinet | 2 built-in speakers

# AROMATIC THERAPY

## THE PURE SCENTS OF ESSENTIAL OILS

If you need improvement in health problems from anxiety to poor sleep, you may want to consider aromatherapy. In this kind of treatment, you use extracts from plants called essential oils, by either breathing them through your nose or putting them on your skin.

Some people put the oils on their skin when they get a massage or take a bath. Essential oils have a wide array of known benefits, including improvement of a variety of respiratory complaints.

What has proven to be the most effective method for deriving the benefits of essential oils is inhalation. The benefits of inhaling the aroma of distilled essential oils have been known about for many centuries. In addition, the inhalation of essential oils supports overall well-being in many ways.

When combined with the Wellis hydro massage system the aromatic scents can enhance your mood and aid deep relaxation. Smells are one of our most evocative senses, triggering memories and changing perceptions, ease stress, anxiety, and depression, boost feelings of relaxation, improve sleep.

With a more simple solution, we will make it easier to enhance the experience. With our push-button system air motor is not required to distribute the fragrance, thus this option is now available not only for high-end models.

# WELLIS TECHNICAL INFORMATION

## W-EC CIRCULATION PUMP

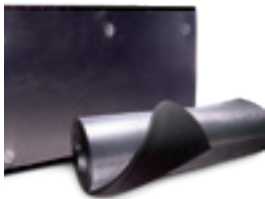

We build the new W-EC pump as a standard equipment into most of our spas. While an average energy-efficient water circulation pump moves 26.5-40 gall of water per minute, the new Wellis W-EC water circulation pump moves 79 gall of water per minute with only 0,8 A of power requirement.

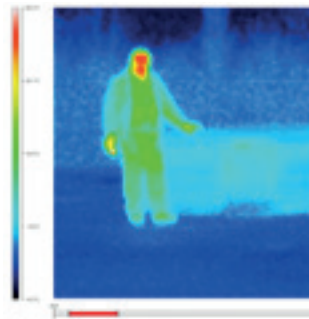

## WPS CABINET FRAME

(Wps-Wellis Polystyrol) The special-polymer ensures exceptional stability and life for the Spa's structural frame – protecting and extending the life of your investment even further.

## POLYFOAM INSULATION

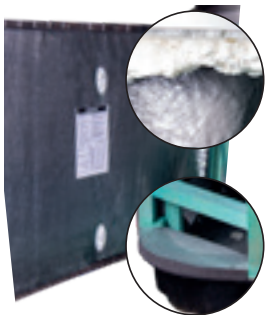

All the internal surfaces of the cabinet and floor pan are completely covered. This actually hold inside the heat from the pumps motors back into the plumbing. This “free” heat energy is therefore transferred back into the spa water, significantly reducing running costs.

## MINIMAL HEAT LOSS IN ALL WEATHER CONDITIONS

The Wellis spa earned excellent results on the heatmap test. The temperature of the water in the spa visible in the picture is 95 °F, while that of the outer covering and the thermal cover is merely 39 °F. The outdoor temperature is 23 °F.

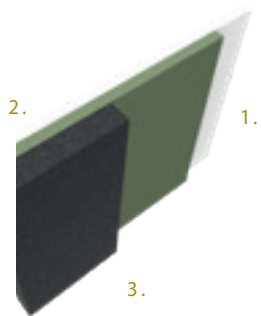

## SCANDINAVIAN INSULATION/OPTION

For extreme climates we offer the option of our “Scandinavian” insulation. This has a much higher insulation rating with triple layer Polyfoam panels and additional under spa rim and floor pan insulation. Only recommended for extreme sub zero temperatures and not for more temperate climates.

polyurethane spa rim insulation | 1.4 in polyfoam insulation between cabinet & floor pan | 1.4 in polyfoam insulation on the cabinet.

## MAX™ REINFORCEMENT

Highly effective sound insulation, probably the quietest spas available. Highly effective heat insulation – which means a longer time between heating intervals - reduced electricity costs! Ecologically sound product, easily degradable, (unlike fibreglass it does not give off any hazardous styrol gas). Thus it is not classes as hazardous and meets all relevant EU standards.

1. Acrylic outer surface with antimicrobial treatment  
 2. ABS polymer layer to further increase impact resistance and strength  
 3. Medium density robotically applied polyurethane for added strength plus acustic and thermal insulation.

PRODUCT WARRANTY

PEAKLINE - CITYLINE - SWIMLINE

ENERGY CONSUMPTION TEST

Consumption of spas with 2 pumps - Spas produced by Wellis are designed to provide luxury and comfort in addition to maintenance costs so you don't have to worry just enjoy the benefits of your Wellis spa and relax. Our UL certificate guarantees that our products are of excellent quality, and are regularly and independently monitored to meet and exceed the highest manufacturing standards.

QUALITY ASSURANCE

Our quality is continuously benchmarked against the highest German production Standards under the TÜV certification protocol that we subscribe to. This ensures we constantly meet and exceed all relevant International quality standards. We are proud of this commitment to excellence and the clear differentiation from our market competitors that it affords us. The CE label on all our products reassures our customers that the design and build meets or exceeds all relevant EU standards.
